RE: Extension applications for Permits S2-16708, S2-29833, and S2-29834 (Ridgefield NWR)

Dear Sir or Madam:

This letter is in response to Charlotte Lattimore's letters of September 16, 2008 regarding the above files. While we have completed all construction work associated with these permits, and have achieved the desired rates, we have not yet used the total amount of water allowed. Both budgetary constraints and refuge needs have limited the annual amount used up to this time. The Ridgefield National Wildlife Refuge (NWR) is currently preparing a Comprehensive Conservation Plan (CCP), and once that is complete, we will be better able to determine our future management goals and how much water we will need to achieve those goals. All NWR's are required to have prepared CCP's by 2012 and it is anticipated that Ridgefield's CCP will be well enough along by August of 2012 for us to have determined the amount of water needed and to have used that amount. Therefore, we request an extension until August 1, 2012 for these three permits. A check in the amount of \$150 is enclosed.

Sincerely,

Dar Crammond

Dear Sir or Madame:

RE: Water Permit No. S2-29834

We have received your Notice of Completion of Construction associated with the above-numbered permit.

Enclosed is a Proof of Appropriation form, which is to be filed **when the water has been put to full beneficial use**. Full beneficial use means that water is being used in agreement with the terms of the permit. You may complete and file the Proof of Appropriation form for less water than authorized in the permit, if the project is complete and less water is being used than anticipated.

If you cannot put the water to full beneficial use by **August 1, 2008**, please contact the Department of Ecology. Permit cancellation may result for failing to timely file the Proof of Appropriation form.

The fees for filing and recording your Water Right Certificate are **\$5.00 payable to the Department of Ecology and \$21.00 payable to the Clark County Auditor**. Send the Proof of Appropriation form and both checks to the Department of Ecology. Also, the County Auditor is **requiring** that we have the **parcel number** for the point of diversion/withdrawal and the place of use, added to your certificate. **Do not submit your fees and paperwork until you have put the water to full beneficial use**. If you do not expect to have the water put to full beneficial use by **August 1, 2008**, you should request further extensions, as needed. To request additional extensions, you will need to submit a letter explaining why an extension is needed, including how many more connections are proposed on this water system. You may extend for more than one year at a time at a rate of \$5.00 per year.

If you have any questions or concerns on the above information, please call Sheri Carroll at (360) 407-0240 or myself at (360) 407-0270.

Sincerely,

Teresa Hanson
